JOURNAL OF IMMUNOLOGICAL METHODS

Contents of volume 196 (1996)

Number 1 – 13 September 1996

Research reports

Development and standardization of solid phase assays for the detection of anti-neutrophil cytoplasmic antibodies (ANCA). A report on the second phase of an international cooperative study on the standardization of ANCA assays
E.C. Hagen, K. Andrassy, E. Csernok, M.R. Daha, G. Gaskin, W.L. Gross, B. Hansen, Z. Heigl, J. Hermans, D. Jayne, C.G.M. Kallenberg, Ph. Lesavre, C.M. Lockwood, J. Lüdemann, F. Mascart-Lemone, E. Mirapeix, C.D. Pusey, N. Rasmussen, R.A. Sinico, A. Tzioufas, J. Wieslander, A. Wiik and F.J. Van der Woude (Netherlands, Germany, UK, Sweden, France, Belgium, Spain, Denmark, Italy, Greece) 1

Recent advances in multiple antigen peptides
J.P. Tam (USA) 17

Development of an immunoradiometric assay for quantitative determination of CrylA(b) protein in transgenic sugarcane plants
R.I. Vázquez, D. Prieto, G.A. De la Riva and G. Selman-Housein (Cuba) 33

Quantitation of IgG subclass antibody responses after immunization with a group B meningococcal outer membrane vesicle vaccine, using monoclonal mouse-human chimeric antibodies as standards
L. Meyer Næss, E. Rosenqvist, E.A. Høiby and T.E. Michaelsen (Norway) 41

Rapid detection of recombinant antibody fragments directed against cell-surface antigens by flow cytometry
S.M. Kipriyanov, O.A. Kupriyanova, M. Little and G. Moldenhauer (Germany) 51

Development of a procedure for the direct cloning of T-cell epitopes using bacterial expression systems
P.I. Neophytou, P. Ozegbe, D. Healey, R. Quartey-Papafio, A. Cooke and J.C. Hutton (UK) 63

Two-dimensional paracrystalline glycoprotein S-layers as a novel matrix for the immobilization of human IgG and their use as microparticles in immunoassays
S. Küpcü, U.B. Sleytr and M. Sára (Austria) 73

Murine bone marrow-derived macrophages constitute feeder cells for human B cell hybridomas
P. Hoffmann, M. Jiménez-Diaz, J. Weckesser and W.G. Bessler (Germany) 85

Chimerism analysis after allogeneic bone marrow transplantation with nonradioactive RFLP and PCR-AFLP using the same DNA
T. Schreiner, H. Prochnow-Calzia, B. Maccari, E. Erne, I. Kinzler, A. Wölpl and M. Wiesneth (Germany) 93

Multianalytical system (MAS): software for enzyme-linked immunosorbent assay (ELISA) data processing with applications to screening and diagnostic tests
N.I. Escobar, J.S. Armstrong, G.N. Gandolff, A.M. Morales, Y.P. Valdés, A.P. Almeida, C.G. Trápaga and E.A. Hernández (Cuba) 97

Notes to authors 101

Number 2 – 27 September 1996

Interleukin-16 (IL-16). A terminology note 103

Research reports

Measuring bonds between surface-associated molecules
A. Pierres, A.-M. Benoliel and P. Bongrand (France) 105

Improved methods for the generation of dendritic cells from nonproliferating progenitors in human blood
A. Bender, M. Sapp, G. Schuler, R.M. Steinman and N. Bhardwaj (USA, Germany) 121

Generation of mature dendritic cells from human blood. An improved method with special regard to clinical applicability
N. Romani, D. Reider, M. Heuer, S. Ebner, E. Kämpgen, B. Eibl, D. Niederwieser and G. Schuler (Austria, Germany) 137
Purification and quantification of L-selectin-reactive GlyCAM-1 from mouse serum
M.S. Singer and S.D. Rosen (USA) 153
Production of murine monoclonal antibodies against sulcofuron and flucofuron by in vitro immunisation
G.A. Bonwick, J.E. Cresswell, A.L. Tyreman, P.J. Baugh, J.H.H. Williams, C.J. Smith, R. Armitage and D.H. Davies (UK) 163
Improved protocol for colorimetric detection of complement-mediated cytotoxicity based on the measurement of cytoplasmic lactate dehydrogenase activity
A. Sepp, R.M. Binns and R.I. Lechler (UK) 175
An improved PCR-heteroduplex method permits high-sensitivity detection of clonal expansions in complex T cell populations
A. Wack, D. Montagna, P. Dellabona and G. Casorati (Italy) 181
A single-step immunochromatographic test for the detection of *Entamoeba histolytica* antigen in stool samples
S. Bhaskar, S. Singh and M. Sharma (India, USA) 193
Activation-induced expression of vascular permeability factor by human peripheral T cells: a non-radioisotopic semiquantitative reverse transcription-polymerase chain reaction assay
K. Iijima, N. Yoshikawa and H. Nakamura (Japan) 199

Contents of volume 196 (1996) 211
